

Study in Multidisciplinary
PAin Research

International Symposium
of Ultrasound in Regional Anesthesia

IX SIMPAR-ISURA

FLORENCE2017

Florence, Italy
MARCH 30TH - APRIL 1ST

Welcome to IX SIMPAR-ISURA 2017

Next year in March a unique event will take place in the wonderful city of Florence - Italy.

Two international and well known meetings will join together in order to give a unique opportunity to all attendants to build their own and personalized meeting experience choosing the most updated talks about perioperative care and chronic pain. Hence, this meeting is the only place where each attendants can choose each day a wide array of topics and combine them together to create her/his best personalized program to deepen exactly what she/he needs.

SIMPAR (*Study In Multidisciplinary PAin Research*) is the first bench to bedside meeting where a real translational approach let attendants to understand how to change clinical and daily activity. In the last edition (VIII SIMPAR in Rome) more than 500 attendants from 30 different countries have joined the meeting with wonderful feedbacks

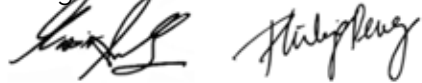

ISURA (*International Symposium of Ultrasound for Regional Anesthesia and Pain Medicine*) is the first large meeting completely dedicated to the application of ultrasound for regional anesthesia and pain medicine. It will be the 14th year in Florence in 2017. The tradition is that the event will alternate between Toronto and a beautiful European city.

Hence, SIMPAR-ISURA is not a meeting but the only place where basic scientists and clinicians with different expertise can discuss and exchange their experience and new findings and refine their expertise in ultrasound. This is also the place where You can meet clinicians of different specialties involved in the understanding and management of acute and/or chronic pain. Hence, we provide you a unique experience: SIMPAR and ISURA together- two meetings in one beautiful city of Florence - Italy. A wonderful occasion for scientists, clinicians and stakeholders to have a spectacular venue to meet and network with people for new ideas to help our professional venture.

We are looking forward to seeing You in Florence! We hope that You will join with us the unique SIMPAR-ISURA atmosphere!

Massimo Allegri & Philip Peng

Congress Presidents

Scientific Committee 2017

PRESIDENTS

Massimo Allegri, *University of Parma, Italy (SIMPAR)*

Inna Belfer, *McGill University Health Center, Montreal, Canada (SIMPAR)*

Giorgio Cruccu, *University La Sapienza, Rome, Italy (SIMPAR)*

Philip Peng, *University of Toronto, Toronto, Canada (ISURA)*

SCIENTIFIC COMMITTEE MEMBERS

Inna Belfer, *McGill University Health Center, Montreal, Canada*

Juan Pablo Cata, *The University of Texas-MD Anderson Cancer Center, Houston, TX, USA*

Vincent Chan, *University of Toronto, Toronto, Canada*

Josè De Andrés, *Valencia School of Medicine-Valencia General University Hospital, Valencia, Spain*

Manuela De Gregori, *Fondazione IRCCS Policlinico San Matteo, Pavia, Italy*

Luda Diatchenko, *McGill University Health Center, Montreal, Canada*

Christopher Gharibo, *Johns Hopkins University, Baltimore, USA*

Vijaya Gottumukkala, *The University of Texas MD Anderson Cancer Center, Houston, USA*

Thomas Grau, *Academic Hospital of WWU, Münster, Germany*

Pablo M. Ingelmo, *McGill University Health Center, Montreal, Canada*

Troels Staehelin Jensen, *Aarhus University Hospital, Denmark*

Patricia Lavand'homme, *St Luc Hospital UCL Medical School, Brussels, Belgium*

Per-Arne Lönnqvist, *Karolinska Institutet, Stockholm, Sweden*

Edward Mariano, *Stanford University School of Medicine; VA Palo Alto Health Care System, California, USA*

Barry Nicholls, *Taunton & Somerset NHS foundation Trust, Taunton, UK*

Geert Van Geffen, *Radboud University Medical Centre, Nijmegen, Netherlands*

LOCAL SCIENTIFIC COMMITTEE

Marco Baciarello, *University of Parma, Italy*

Dario Bugada, *Azienda Ospedaliero Universitaria Parma*

Flaminia Coluzzi, *University "La Sapienza", Rome, Italy*

Christian Compagnone, *Azienda Ospedaliero Universitaria Parma*

Andrea Fanelli, *Ospedale Sant'Orsola Bologna, Italy*

Maurizio Marchesini, *Azienda Ospedaliero Universitaria di Parma, Italy*

Andrea Truini, *University "La Sapienza", Rome, Italy*

Renato Vellucci, *Azienda Ospedaliero Universitaria Careggi, Florence, Italy*

(Please note: pre-registration is requested, fee not included)

US-RA 4 Brachial plexus block - below clavicle

US-RA 5 Rescue block

US-RA 6 Popliteal and ankle

US-RA 7 Spine scan

US-RA 9 Upper trunk block (PVB, PEC, SAP)

US-RA 10 Lower trunk block (QLB, TAP, ILN)

US-RA 11 Advanced Shoulder and elbow (SSN, AxN, DSN, Sup trunk)

US-RA 12 Advanced lower limb block (lumbar, sacral plexus, Sc)

11.00-11.30 Break

I think there is no need for so much space used. What we need are
State the time once: 9:30-18:00
Then your gray ISURA R..A...WS
then list all long workshop 90min US-RA 1 and US-RA 2
and list all short workshop and no need to repeat the WS in each timeslot
Since right from the start, we state workshop the whole day, it is clear.

Friday, March 31st, 2017

Second morning session

11.30-13.15

AUDITORIUM

Postoperative Pain: a new way to understand it

Bench - Genomic: a way to better understand mechanism of acute pain

I. Belfer

Translational - NSAID an old drug with a "new" mechanism on Central nervous system

L. Arendt-Nielsen

From child to adult - Alpha-2 agonists as adjuvants to local anaesthetics for peripheral nerve blockade

Lonqvist

Clinical - Future perspectives in the perioperative prevention of chronic pain

M. Curatolo

Discussion - Which insights for our clinical practice

Chairmen: J. Cata, A. Fanelli

ISURA CHRONIC PAIN WORKSHOP

(Please note: pre-registration is requested, fee not included)

US-CP 7 Elbow and wrist

US-CP 8 Hip and knee

US-CP 9 Ankle joint and nerve

US-CP 10 Hip and knee joint, trochanteric bursa injection

US-CP 1 Cervical Spine facet

US-CP 2 Lumbar spine

US-CP 3 SIJ joint and denervation

US-CP 4 Stellate, SSN

US-CP 5 GON, intercostal

13.00-14.00 Lunch

Saturday, April 1st, 2017

First afternoon session

14.00 - 15.30

AUDITORIUM

Tips and tricks in drug neuromodulation of chronic pain

Bench - Infusion models in animals , in the search of the optimal distribution pattern

Yaksh

Translational - Matemtical models predicting better outcome in intrathecal drug delivery

A. Linninger

Clinical - Innovations in intrathecal drug delivery programmingo

De Andrés

Discussion - Which insights for our clinical practice

Chairmen: Marchesini

GREEN ROOM

Optimal perioperative analgesic anesthesia protocol

Obstetric

W. Teoh

Shoulder surgery

D. Ghisi

Morbidly obese patient

C. Lobo

Breast surgery

R. Blanco

Add Ultrasound-RA
track above Optimal
peri-operative.....

Saturday, April 1st, 2017

First afternoon session

LEMON HOUSE

From acute to chronic pain: the never ending story

Bench - A randomized, phase 2 study investigating TRV130, a biased ligand of the μ -opioid receptor, for the intravenous treatment of acute pain

Viscusi

Translational - Regional anesthesia: long playing story and challenges for the future

Gottumukkala

From child to adult - Can we predict the trajectories of pain with a blood test?

C. Ferland

Clinical - Gabapentinoids in acute pain

Gharibo

Discussion - Which insights for our clinical practice

Chairmen: Gottummukkala

ONICE ROOM

Cannabinoids in chronic pain: friend or foe?

Chairman: Vellucci

Vellucci - S. Diwan

Saturday, April 1st, 2017
